2019
PRODUCT DATA

UNILOCK
DESIGNED TO CONNECT.
**BEACON HILL SMOOTH**

QUALITY GUARANTEED

**GOOD CLASSIC**

Our budget-friendly, Unilock Classic pavers and walls are manufactured to exceed ASTM standards for quality and strength. Available in classic shapes and styles, these products utilize a traditional **product mix of large and small aggregates**, that’s consistent from top to bottom, with color mixed throughout.

**BETTER ENDURACOLOR**

The refined surface of Unilock Enduracolor products is achieved with a **two step manufacturing process** that combines a base of coarser aggregates for a **stronger foundation**, with concentrated color and **wear-resistant finer aggregates on top**. This process protects the surface from the appearance of fading over time because the top layer prevents large, lighter color aggregates from ever showing through.

**BEST ELEGANCE**

Deep, rich colors and a multitude of **unique Reala™ textures** combine to deliver the timeless beauty of Unilock Elegance. From the timeworn look of European cobblestones, to the classic luxury of riven natural stone slabs, our Elegance collection offers styles you can’t get anywhere else and thanks to Ultima Concrete, the look you purchase is the look that will last, with up to **4x the strength** of poured in place concrete.

---

**EXCLUSIVE UNILOCK TECHNOLOGIES**

<table>
<thead>
<tr>
<th>REALA™</th>
<th>Ultra realistic textures cast from Natural Stone, brick and historic cobblestones.</th>
</tr>
</thead>
<tbody>
<tr>
<td>ULTIMA™</td>
<td>A proprietary manufacturing process creates pavers with up to four times the strength of poured concrete.</td>
</tr>
<tr>

Notes: * Universal Base & XL Wall units are single units and are sold in full bundles only and are produced and sold on a required, refundable skid. When purchased by the full bundle, Corner Units are produced and sold on a required, refundable skid. 12” Coping bundle has 16 units of closed-end coping (8 left and 8 right). Closed-end 12” coping not sold separately. Maximum height - 36” (under optimum conditions). Higher walls can be achieved using geogrid reinforcement. The set back on Pisa2 wall is ¾” every course or 1 ½” every 2 courses. Retaining wall engineering software is also available free of charge at www.unilock.com. Walls greater than 4’ in height require professional engineering. Tapered Units allow for a minimum 5’ Radius. All measurements are nominal. Contact Unilock for more information.

Cross sections are examples and must not be used for construction.

**Notes:**  
*Sold in full bundles only and is produced and sold on a required, refundable skid.*  
Rivercrest is recommended for walls under 2ft. Ideal for straight or curved walls, seat walls, pillars, tree rings, planters, firepits and grill islands. Integrated connectors require no pins or clips. Minimum radius using equal amounts of each unit is 1.25m / 4.1ft. Using only unit 1 & 3 a 1.055m / 3.5ft radius can be achieved. For more information, please consult the Rivercrest installation booklet. Retaining wall engineering software is also available free of charge at www.unilock.com. All measurements are nominal. Contact Unilock for more information. Unilock recommends using Ledgestone™ or Natural Stone coping for a complete and refined look.
DESIGN STYLE

To accurately determine the number of standard and jumper units you will require, start by selecting an aesthetic option.

Option A
No Jumpers

Option B
Some Jumpers

Option C
Many Jumpers

JUMPER UNITS

In addition to being used to enhance sections of wall, jumper units can also be used in a variety of different ways within the Rivercrest Wall system. The Jumper Unit #2 has faces on three sides making it perfect for incorporating into pillars and corners. The unit can also be used when starting and ending seat walls.

For more information please consult the Rivercrest installation booklet.
U-CARA™ Fascia panels can be placed anywhere along the Sure Track Backer Block, allowing for a variety of patterns, color and texture combinations not possible with other systems.

1/2 Running Bond 1/2 Running Bond with Linear Accents 1/2 Running Bond with Random Accents

1/2 Running Bond with Paver Accents Mixed Bond 1/3 Running Bond

Stacked Bond Stacked Bond with Accents

LOOK INSIDE!
U-Cara fascia panels hang easily on the patented Sure Track™ backer block.
The U-Cara Multi-Face Wall System represents a revolution in wall design. This patented system, exclusive to Unilock®, is comprised of two basic components:

- Sure Track™ backer blocks provide dimensionally accurate structure
- U-Cara fascia panels provide unlimited design options

Add instant charm and appeal to your backyard with a welcoming fire pit from Unilock. Each fire pit is pre-assembled in order to provide you with the easiest installation, with a variety of stone options to match your existing patio. Whether you are building a new patio, or adding to an existing one, your fire pit will become the ultimate gathering spot.

**SUNSET FIRE PIT KIT**

This fire pit kit uses Brussels Dimensional Stone® (small tapered units).

**RIVERCREST® FIRE PIT KIT**

This fire pit kit is built with the Rivercrest Wall.

UNILOCK ELEMENTS

Tuscany & Barcelona Fireplace

GUARANTEE

The standard Unilock guarantee applies to the units used to construct Unilock Elements. (See Unilock literature for details.) Third party grills and fireboxes carry their respective manufacturer’s warranty, and may change without notice.

Note: Unilock reserves the right to change model designs, accessories and colors without notice. Unilock will not be responsible for improper use or handling that results in property damage. Some models may not be exactly as shown. Fireplaces come complete with UL-approved stainless steel fireboxes. Check local building codes and regulations prior to ordering and installing Unilock Elements.
TECHNISEAL PRO SERIES CLEANING PRODUCTS

PROFESSIONAL GRADE OIL & GREASE REMOVER
RS-CLN001
Professional Grade Oil and Grease Remover is an industrial strength petroleum-based product. It lifts and absorbs embedded oil and grease stains as it dries from a liquid to a powder. Specially formulated for concrete pavers, slabs, walls, natural stone, poured or stamped concrete, etc. Works without damaging or discoloring material and is easy to use.
Packaging: • 1 quart container • 6 per case • 100 cases per skid (600 qts)
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

PAVER PRIMER & EFFLORESCENCE REMOVER
RS-CLN002
Paver Primer is specially formulated to dissolve efflorescence (whitish salt deposit) and remove ground-in dirt on paving stones and concrete, without discoloring or damaging surfaces. It cleans evenly, and enables the sealant to better penetrate the material to be treated.
Due to HAZMAT Regulations, no more than 1,000 lbs. may be picked up at one time.
Packaging: • 1 gallon • Box of 4 x 1 US gallon • 45 cases per skid (180 gallons) • 100 sq ft approx. coverage
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

SUREBOND SURECLEAN
RS-CLN014 – 1 Gal / RS-CLN063 - 5 Gal
SureClean is a powerful, super concentrated non-acid multi-use cleaner that dislodges deep set dirt and grime, tire scuffing, and environmental soiling. SureClean’s unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer. Its biodegradable and environmentally friendly phosphate-free formula replaces most harsh acid cleaners and its alkaline nature will help neutralize acid based detergents and cleaners. Due to HAZMAT Regulations, no more than 1000 lbs. may be picked up at one time. (1 Gallon / 4 per case / 27 Cases per Skid)

SUREBOND EFFLO OFF
RS-CLN062 – 1 Gal / RS-CLN067 – 5 Gal
Efflo Off is a buffered, non-acid, organic salts, technologically advanced concentrated cleaner designed for the removal of efflorescence, mineral and salt deposits from virtually any type of hardscape surface with minimal or no brushing. Efflo Off is mild but may be corrosive to certain woods, metals and plants. Covering and protecting surrounding areas during application may be required. Efflo Off’s unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer. Efflo Off’s biodegradable and environmentally friendly phosphate free formula replaces several types of harsh acid cleaners and its alkaline nature will help neutralize acid based detergents and cleaners.
1 Gallon / 4 per case / 36 Cases per Skid (144 each)

SUREBOND STAIN & RUBBER BUSTER
RS-CLN065 – 1 Quart
S.R.B. is a powerful, concentrated spot cleaner which dislodges and removes common stains caused by moss, mildew, leaf, rust, blood, beverage spills and non-greasy food. S.R.B.’s concentrated, biodegradable formula allows for a full spectrum of dilutions matched to your cleaning needs. S.R.B.’s unique Clean Rinse Technology quickly and easily rinses away residue with a high or low pressure washer.
1 Quart/ 12 per case / 27 Cases per Skid (324 each)
SB-10 ADHESIVE
RS-ADH009-1 (10 oz) / RS-ADH015-1 (28 oz)
Surebond SB-10 adhesive SB-10 Paver Bond is a fast set up, quick curing, superior strength, structural grade hardscape adhesive. Adheres well in extreme conditions such as temperatures ranging from 0° to 100° F, frozen and/or damp substrates. Superior durability to withstand extreme wear and tear including heavy vehicular traffic. Helps to level and shim. Applies easily with a caulking gun.
- Low odor
- VOC compliant
- 10 oz. Tube: 12/case & 140 cases/skid
- 28 oz Tube: 12/case & 60 cases/skid
- 900 psi
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

SB-15 RAPID SET ADHESIVE
RS-ADH050 (10 oz) / RS-ADH051 (28 oz) Limited Stock Available
SB-15 Rapid Set is an ultra-fast set up, quick curing, superior strength, structural grade hardscape adhesive. It will adhere well in extreme conditions such as temperatures ranging from 10° to 100° F, and on frozen and/or damp substrates. SB-15’s superior durability will withstand extreme wear and tear including heavy vehicular traffic. It helps to level and shim and can be applied easily with a standard caulking gun. Ideal for retaining walls, seat walls, columns, caps, steps, outdoor kitchens, grill surrounds, paver installations, coping systems and more.
1/4” bead yields: 26 lin. ft./10 oz tube | 86 lin. ft./28 oz. tube
Packaging: 12 tubes/case, 140 cases/skid

XP GATOR BLOCK ADHESIVE
RS-ADH039 (10 oz) / RS-ADH040 (28 oz)
Gator Block Bond Adhesive is one of the strongest polyurethane adhesives on the market, specially formulated for bonding concrete, natural stone, blocks, bricks and pavers and can be used on dry or damp surfaces. It bonds permanently in 24 hours.
- Low odor
- VOC compliant
- 10 oz. Tube: 12/case & 90 cases/skid
- 28 oz Tube: 12/case & 60 cases/skid
- 850 psi in 24 hours/1000 psi in 7 days
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

SHERWIN WILLIAMS POWERHOUSE - ALL PURPOSE ELASTOMERIC SEALANT
RS-TOOL201 Tan / RS-ADH022 Grey
Sherwin Williams Powerhouse is a premium sealant that provides excellent flexibility and performance.
- 10 oz. Tube / 12 per case
- Crack proof seal
- Water/Weatherproof seal
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

UNICARE NATURAL STONE ACID CLEAN NEW!
RS-CLN095 (1L) / RS-CLN098 (5L)
Removal of:
- Cement Staining
- Efflorescence
- Iron Oxide (Rust)
- Cement mortar
- Grout
Note: Never use hydrochloric or sulphuric acid based products. ONLY FOR ACID RESISTANT STONE.
Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

UNICARE NATURAL POWER CLEAN NEW!
RS-CLN096 (1L) / RS-CLN099 (5L)
Removal of:
- Oil & Grease
- Sap & certain plant stains
- Food Stains
- General Dirt & Mud
- Light cement contamination (on acid sensitive surfaces)
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

UNICARE BIOCLEAN NEW!
RS-CLN097 (1L) / RS-CLN100 (5L)
Removal of:
- Black spot algae
- Green algae
- Organic staining from bark & compost
- Plant stains from leaves, wood, trees, berries & flowers
- Colored stains from food spillages, tea, coffee and wine
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.
SUREBOND 8700 WET LOOK JOINT STABILIZING SEALER
RS-SEAL151 (1 gal) / RS-SEAL152 (5 gal)
Surebond 8700 is an advanced premium acrylic sealer with a gloss finish that repels water within 90 minutes and stabilizes joint sand. SUREBOND 8700 is specially formulated with antifungal agents designed to help inhibit the growth of mold, fungi and moss on horizontal pavement surfaces. This breathable sealer can be applied immediately to new installations and will not trap naturally occurring efflorescence. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. Packaging: 4 1-gallons/case • Approximate coverage 80-120 sq.ft. per gallon • Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (22 Cases per skid or 22 x 5 gallons per skid/truckload)

SUREBOND 1300 JOINT STABILIZING SEALER
RS-SEAL037 (1 gal) / RS-SEAL036 (5 gal) / RS-SEAL038 (55 gal)
Surebond 1300 is an epoxy modified, single-component VOC, EPA, and OSHA compliant, solvent-free, penetrating sealer that provides protection to interlocking paving stone installations against salt spray, acid rain, food and beverage stains, and other oxidizers. This matte finish sealer binds joint sand together to ensure the integrity of the pavement by forming a homogeneous, flexible pavement that stops erosion or joint sand failures in large paver installations. This sealer is also used to seal retaining walls and for concrete and aggregate and split-face stone to protect against staining, salt spray, and acid rain damage and discoloration for architectural, industrial, and residential installations. Packaging: 6 1-gallons/case • 27 cases per skid • 36-5 gallon pails/skid • Approximate coverage 100-150 sq.ft. per gallon

WL4 TECHNISEAL® PROSERIES WET LOOK WATER REPELLANT
RS-SEAL01001 (1gal) / RS-SEAL01073 (5 gal) / RS-SEAL01003 (55 gal)
Made of acrylic and plasticizers, Wet-Look Paver Protector (WL4) is a wet-look, gloss-finish and microporous transparent coating that protects pavers made of concrete while enhancing their original color. It reduces oil and dirt penetration, and makes cleaning easier. Easy to apply, it penetrates the surface for maximum adhesion and durability. It will not peel or discolor. It resists the elements (freeze-thaw cycles, sun, rain, etc.), as well as calcium and salt. It also resists hot tire pick-up. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. For outdoor use only. Packaging: 4 1-gallons per case • Approximate coverage 100-150 sq.ft. per gallon • Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (22 Cases per skid or 19-5 Gallon pails per skid/truckload)

WL5 TECHNISEAL® PROSERIES WET LOOK RECOATER PAVER PROTECTOR
RS-SEAL113 (1gal) / RS-SEAL096 (5 gal)
Wet Look Recoater (WL5) is specially formulated for surfaces previously sealed with the WL4 or WLWR Protectors. This easy to apply sealer, adds a rich satin and glossy appearance to pavers. Consisting of acrylic and plasticizers, the Wet Look Recoater (WL5) can be used to effectively protect and enhance landscape installations. The sealer has optimum oil repellency and resists the assaults of weather (freeze-thaw cycles, sun, rain, etc.) as well as calcium and salt. Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS. For outdoor use only. Packaging: 4 1-gallons per case • Approximate coverage 100-150 sq.ft. per gallon • Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (22 cases / skid or 19 x 5 gallon per truck load)

WL BP PRO WET LOOK SOLVENT-BASED SEALER
RS-SEAL049-1 (1 gal) / RS-SEAL050 (5 gal) / SPECIAL ORDER (55 gal)
Designed specifically for use on block paving to seal the paver surface and fuse the joint sand. It is a solvent-based single component polymer that creates a semi-gloss finish. It has the consistency of a light oil and is clear in appearance. It has a strong odor when in its liquid state and dries to a transparent semi-gloss finish with a darkened wet look. It can be used outdoors on new and existing projects because it is UV stable. WetLook Stabilizing Sealer can be applied immediately because it is breathable and does not trap moisture and it has outstanding coverage. The product is easy to install and offers great stain and environment protection. Cured product is heat and freeze resistant. Packaging: 4 1-gallons per case • 50-125 sq.ft. coverage per gallon (approx.) • Due to HAZMAT regulations, no more than 1000lbs may be picked up at one time. (27 cases per skid or 25-5 gallons per skid/truckload)

BP PRO INVISIBLE STAIN BLOCKER
RS-SEAL127 (1 Gal) / RS-SEAL128 (5 Gal)  *SPECIAL ORDER*
Designed specifically for use on block paving to provide an invisible stain resistant barrier. It is a water-based single component polymer that penetrates to give you an invisible natural finish. StainBlocker is a green product that is solvent free and environmentally friendly. It is VOC, EPA, OSHA and FDA compliant. It is non-hazardous and non-toxic and has the consistency of water and a milky white appearance and a slight odor when in it's liquid state and dries to an invisible finish. It can be used indoors and outdoors on new and existing projects because it is safe and UV stable. StainBlocker can be applied immediately because it breathable and it has outstanding coverage. The product is easy to install and offers excellent stain protection and reduces the formation of efflorescence. Cured StainBlocker is heat and freeze resistant. Packaging: 4 1-gallons per case • 150-250 sq.ft. coverage per gallon (approx.)
SEALING PRODUCTS Cont’d

WSS BP PRO WET LOOK JOINT STABILIZING SEALER
RS-SEAL078 (1 gal) / RS-SEAL079 (5 gal) / RS-SEAL080 (55 gal)
Designed specifically for use on block paving to seal the paver surface and fuse the joint sand. It is a solvent-based single component polymer that creates a semi-gloss finish. It has the consistency of a light oil and is clear in appearance. It has a strong odor when in its liquid state and dries to a transparent semi-gloss finish with a darkened wet look. It can be used outdoors on new and existing projects because it is UV stable. WetLook Stabilizing Sealer can be applied immediately because it is breathable and does not trap moisture and it has outstanding coverage. The product is easy to install and offers great stain and environment protection. Cured product is heat and freeze resistant. Packaging: 4 1-gallons per case • 50-125 sq.ft coverage per gallon (approx.) • Due to HAZMAT Regulations, no more than 1000 lbs. may be picked up at one time. (27 cases per skid or 25-5 gallons per skid/truckload)

ESS BP PRO ENHANCED JOINT STABILIZING SEALER
RS-SEAL042 (1 gal) / RS-SEAL043 (5 gal) / RS-SEAL044 (55 gal)
BP Pro Enhanced Joint Stabilizing Sealer is designed specifically for use on block paving to stabilize joint sand and seal the paver surface. It is a water-based, single-component polymer that penetrates into the pores and seals the surface with a coating that creates a semi-gloss finish. Enhanced Joint Stabilizing Sealer is a green product that is solvent free and environmentally friendly. It is VOC, EPA, OSHA, and FDA compliant. It is non-hazardous and non-toxic. Stabilized joint sand will significantly reduce weeds and insect infestations. It is a dual-purposed surface and joint sand stabilizer. Packaging: 4 1-gallons per case • 36 cases per skid • 36 5-gallons per skid • 4 55-gallon container per skid • 80-100 sq.ft. coverage per gallon (approx.)

TECHNISEAL® SUREFOOT ANTI-SLIP GRIT
RS-SEAL166 (Solvent-based) / RS-SEAL167 (Water-based)
Unicase SureFoot Anti-slip grit mixes easily with sealer to reduce the slipperiness of pavers without changing the sealer’s original appearance. It provides a uniform coat and a safer, more slip-resistant surface where slips and falls are likely to occur; such as pool decks, access ramps, etc. Two separate formulas are available to mix well with either water or solvent based sealers. Directions: 5 Scoops mix into 1 Gallon of Sealer / One Can mixes into 5 Gallons of Sealer. Packaging: 6 cans/case

UNICARE NATURAL STONE NATMATTE SEALER      NEW!
RS-SEAL229 (1L) / RS-SEAL231 (5L)
For Porous Stones
• No change of color • No surface coating, sheen or shine at all • Riven Sandstone & Smooth Sandstone
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.

UNICARE NATURAL STONE NATCOLORENCANCE SEALER      NEW!
RS-SEAL230 (1L) / RS-SEAL232 (5L)
Color Enhancement For Porous Stones
• No surface coating, sheen or shine • Breathable • Lasts several years • Easy to apply
Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see SDS.
SANDS

JOINTING SAND
RS-SAND001 - Tan / RS-SAND140 - Grey (limited stock available)
50 lb/bag 56 bags/skid
Kiln dried and angular shaped in order to flow easily and stay in place.

SEK POLYSWEEP SAND
RS-SAND045 - Tan / RS-SAND046 - Grey
50 lb/bag 56 bags/skid
For concrete paver, cast stone pavements, slabs and natural stone joints up to 3/4". PolySweep polymeric sand is a blend of native sands and high quality synthetic polymers specially formulated to allow the joints to expand and contract with elements such as extreme heat, extreme cold and freeze/thaw cycles. Also available in limited stock - X-treme Wide PolySweep for joints up to 4” RS-SAND111 - Rustsu Brown / RS-SAND117 - Grey

TECHNISEAL PRO SERIES SMARTSAND POLYMERIC SAND
RS-SAND169 - Tan / RS-SAND168 - Grey
For Standard Joints - 50 lb/bag, 56 bags/skid (2860 lbs/skid)
A special mix of graded sand and binder specifically formulated for achieving optimum lock-up of pavers or slabs by filling the joints between them. Unlike regular sweeping jointing sand, Polymeric Sand resists insect penetration, weed growth, and erosion. New formulation with half hour setting time. Coverage: Approx. 75 sq. ft./bag Coverage will vary depending on the type/size of stone used. Note: This product is recommended with extra care for use with Copthorne®, Courtstone®, Richcliff®, Town Hall® and Umbriano® products. Umbriano must have the surface cleaned with a foam squeegee post installation. This product is not suitable for use with Il Campo®, Series™ and Unigranite®.

TECHNISEAL PRO SERIES HP NEXTGEL POLYMERIC SAND
RS-SAND131 Prairie - Tan / RS-SAND130 - Prairie Grey
For Large Joints - 50 lb/bag, 56 bags/skid (2860 lbs/skid)
Designed for paver joints up to a maximum of 1 inch. This paver sand is a high-performance polymer sand - it is the ideal product for heavy traffic and wet areas. Weeds and insects in paver joints is part of the past with this high-end product. This polymer sand is a mixture of graded sand (ASTM C144) and binder. It penetrates easily into joints, ensuring a fast and efficient jointing solution. This easy to use jointing sand will start to harden in minutes after water activation, and it quickly becomes resistant to erosion caused by water (rain, sprinklers and spray). Coverage: 65-85 sq.ft. coverage per bag for narrow joints, larger joints will require more sand.

EASY-PRO™
RS-SAND066-1 - Tan / RS-SAND068-1 - Black / RS-SAND069-1 - Grey
50 lb container - premixed * Discontinued for 2019 - Minimal Quantities remain — please contact Unilock for availability.*
Ultimate Paving Stone Joint Compound. Designed for installation in light rain or sun with a surface temperature above 32’F, this pre-mixed epoxy resin product is ideal for patios, pool decks and walkways. It is also permeable. Features: Vacuum packed, pre-mixed and ready to use, eco-friendly (60% renewable products), no haze formulation, for joint widths starting from 1/4” wide and 1 1/4” deep.
Colors: Tan, Black, Grey
Coverage: Approximately 75 sq. ft/container. Coverage will vary depending on the type/size of stone used.
STORAGE: Open product good for 30 day when covered with water.
Note: This product is not suitable for use with Umbriano®, Il Campo®, Series™, Unigranite®, Artline® and Bristol Valley®.

GATOR HP SUPER SAND BOND
RS-SAND078 - Beige / RS-SAND080 - Slate Grey
50lb. bags (56 bags/skid)
Wetcast & Natural Stone Joints up to 1’
Super Sand Bond is a unique mixture of polymer binders and calibrated sand available in Beige and Slate Grey. The installation of Super Sand Bond is almost identical to using regular paver joint sand, except for the application of water. Once Super Sand Bond sets, it becomes very firm and locks between the paver joints. This firm bond maintains pavers securely in place, being equally effective on both horizontal and sloped surfaces.
ALLIANCE SUPER SAND G2
RS-SAND156 – Beige / RS-SAND157 - Slate Grey
50lb. bag (56 bags/skid)
SUPERSAND G2 is made with a state-of-the-art manufacturing process. Specifically, calibrated sand is mixed with sophisticated intelligent polymers. This new generation of Intelligent Polymers neutralizes haze and dust. No blower is needed and the intelligent polymeric sand requires only one watering. SUPERSAND G2 is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces, pavements etc. This complete multi-purpose sand is available in two colors: Beige, and Slate Grey. It sets above the freezing temperature (32°F / 0°C) and can be used for joints up to a maximum of 1 inch.

ALLIANCE MAXX G2 – 50 LBS.
50lb bag (56 bags/skid)
GATOR MAXX G2 is made with a state-of-the-art manufacturing process. Specifically, calibrated sand is mixed with sophisticated intelligent polymers. This new generation of Intelligent Polymers neutralizes haze and dust. The polymeric sand application is now dust free and haze free. No blower is needed and the intelligent polymeric sand requires only one watering. GATOR MAXX G2 is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces, pavements etc.

EUROSTONE BOND
50lb. bag (56 bags/skid)
For Driveway Aprons Application & Cobblestone Joints up to 3.5cm / 1"
Eurostone Bond is the first polymeric sand specifically designed for drainage and non-drainage base systems. It can be used with natural stones and cobblestone. It is recommended for a variety of uses, including streets, plazas (pedestrian and vehicular traffic) paths, sloping areas, around pools, etc. This complete multi-purpose sand is available in three colors: Beige, Slate Grey and Diamond Black. It sets above the freezing temperature (0°C / 32°F) and can be used for joints up to a maximum of 3.5 cm/ 1”.

GATOR DUST BOND
RS-SAND072 – Beige / RS-SAND073 – Slate Grey
50lb. bag (56 bags/skid)
For Stone Joints 1/2” to 4”
Gator Dust is a unique mixture of polymer binders and calibrated crushed stone available in Sahara Beige or Stone Grey. Once Gator Dust sets, it becomes very firm and locks between the stone joints. This firm bond maintains the stones securely in place equally effectively on both horizontal and sloped surfaces.

GATOR AQUA ROCK
RS-AGG032 - 50lb. bag (56 bags/skid) / RS-AGG033 (2200 lb. SuperSak)
50lb. bags (56 bags/skid)
For Permeable Paver Joints Graded ASTM NO.9 Granite Stone
Gator Aqua Rock is manufactured to meet ASTM No.9 requirements for permeable paver joint units. The calibrated gradation obtained from the fractured high-strength granite makes it the ideal product for the bedding course & jointing material to collect surface water run-off and help stabilize interlocking paver surfaces.
Coverage: 20-25 Sq.Ft. = 50 lb bag / 880-1100 Sq.Ft. = 2200 lb bag

SEK PERMEABLE CHIPS
RS-AGG035 - Eclipse Black / RS-AGG036 - Eclipse Black 2500 lb / RS-AGG040 - Stormy Grey /
RS-AGG034 - Sunset Red / RS-AGG037 - Saturn Tan *Sunset Red & Saturn Tan are Special Order - Full Skid Qty. only!*
50lb. bags (56 bags/skid)
The high strength crushed and washed granite meets ASTM No. 9 Stone Specifications for permeable joint filler. Ensure surface infiltration performance- SEK PermChip is the perfect choice for permeable paving stone installations, both as a bedding course and as a joint filler. SEK PermChip is an extremely hard material, easily withstanding the rigors of freeze/thaw cycles. It will not break down, helping to control the runoff for years to come. The right choice for both residential and commercial applications, including driveways, patios, walkways and parking lots. SEK PermChip comes in four colors: Eclipse Black, Sunset Red, Saturn Tan and Stormy Grey.
Coverage: 30-35 Sq.Ft. = 50 lb bag / 1500-1750 Sq.Ft. = 2500 lb bag
UNILOCK DRIVEGRID™ SYSTEM

RS-FAB075
• 120’ x 13.1’ Roll - 1572 Sq. Ft. & 56 lbs per Roll
• Sold in Full Rolls Only

STRATAGRID

STRATAGRID RS-FAB007
Stratagrid is a geogrid reinforcement for soil and aggregate reinforcement. These high-molecular weight and high-tenacity polyester yarns, utilizing a complex knitting process and low-temperature coating technology to provide superior engineering properties. Yarns are precision-knitted into a dimensionally stable, uniform netowrk of apertures providing significant tensile reinforcement capacity. Stratagrid is engineered to be mechanically & chemically durable, in both the harsh construction installation phase and in aggressive soil environments (pH ranges from 2-10). A proprietary UV-stabilized coating provides further chemical and mechanical benefits.

SPECIFICATIONS
Ultimate and Creep-Limited Tensile Strength (lbs/ft) SG200
Ultimate Strength 3000
Creep-Limited Strength 1863
Roll Dimensions (width x length) (feet) 6 x 300
Area (square yards) 200
Weight per Roll (lbs) 85
Last Number GB-3022

X & T SLAB SPACERS

X & T SLAB SPACERS
• 250 per bag
• X & T bagged separately
• T spacers 2” x 1” (RS-ACC236)
• X spacers 2” x 2” (RS-ACC237)

GEOTEXTILE FABRIC

GEOTEXTILE FABRIC RS-FAB001
FX-40HS, a non-woven Multipurpose Geotextile Fabric composed of 100T Polyester continuous-filament yarns and heat bonded so the filaments retain their relative position. Sold in full roll quantities only, 15’ x 300’ (4500 sqft per roll)

SPECIFICATIONS
Physical Properties Test Method
60x, NonWoven Mechanical
Puncture Strength (lbs) ASTM D-4833 120
Water Flow Rate (gpm/ft²) ASTM D-4491 130
Weight (oz/ft²) ASTM D-3776 6.0
Thickness (mils) ASTM D-1777 75
Weight 225lbs/roll

PAVER PULLER

EZ PULLER
RS-TOOL178
• E-Z Puller removes pavers up to 16 inches with the E-Z 16
• No damage to surrounding pavers
• Sealed pavers or Polymeric Sand - no problem, pavers pop right out
• E-Z one man operation, saving time and money
• Great for engraved paver installations
Gator Tile System
Contact Unilock for more information.

Wall Drain Pro
12 units/case, 63 cases/pallet
Wall Drain Pro is a simpler, more effective wall drain than you’ve ever used before.
• Easy Installation
• Aesthetically Pleasing
• Integral Component of Wall Construction
• Customizable Height
• Works with Block or Timber Walls

SnapEdge - One-Piece Edging That Does It All!
RS-EDGE001 Low Profile - RS-EDGE017
• Only one part required for straight runs or curved installations.
• Built-in connector fastens one piece to the next – convenient 96” size, makes them easy to transport.
• Unique ‘Snip and Flex’ feature speeds installations of curves and corners without pre-planning.
• The open design allows a root system to grow through SnapEdge, further reinforcing the installation.
• Engineered to provide a strong, easy-to-install edge restraint for concrete/clay pavers.
• Nail hole bosses are full-length cylinders. Hammer blows will not fracture or force nail heads through edging.

PermEdge Permeable Paver Edging
RS-EDGE033
• Designed specifically for permeable pavement with open graded base material.
• Holds pavement edges securely in place.
• Does straight and curved edges.

Spikes
RS-EDGE014
• 10” Round Spikes
• About 150 spikes per case
• Sold in full cases only

Calculation charts and formulas are provided as a service by Unilock for estimating material requirements. Unilock will not be held responsible in any way for resulting product overage or shortage.
POLYSAND BEST PRACTICES

• Ensure that paver surface has proper drainage runoff (Min 1” over 8’). Finished paver height should always be higher than grade to allow proper surface drainage.
• Do not set pavers in limestone screenings. This product holds moisture and does not meet the gradation, drainage qualities or strength of coarse concrete sand.
• Make sure pavers are clean of all construction dust. Residual construction dust will haze pavers!
• Compact pavers into setting bed to create proper interlock.
• Read and review all polysand manufactures methods of application. (Read Directions)
• Don’t rush polysand installation.
• Paver area must be completely dry.
• Lay bags of polysand over paver area. Stage bags in areas of coverage. Example: one bag for 60 square feet.
• Do not over sweep sand. Sweep sand back and forth within coverage area to fill paver joints.
• Compact sand into joints. This is a must in achieving proper density of the sand joint (repeat 3 times). Compaction is critical to assuring sand strength.
• Do not fill sand above the chamfer of paver. Sand should sit 1/8” below bottom of chamfer.
• Using a fine-bristle broom remove any excess sand from the paver surface.
• Using a leaf blower remove any sand or binder residue.
• Review all watering directions (Each manufacture has different watering instructions.) This is VERY IMPORTANT!
• Always start watering at the bottom of the slope.
• Always start watering in controlled areas per manufacturers recommendations. Example: complete watering in 200 sq. ft. area then move on to the next 200 sq. ft. and repeat.
• During final watering of poly sand, clean surface by removing excess water with leaf blower or squeegee depending on paver surface texture. This will remove any leftover binder residue or sand.
• Final thoughts – Always be aware of the weather when installing poly sand. (Temperature and setting time ratings differ between products.)
• Refer to all manufactures websites for installation videos.

SEALER BEST PRACTICES

• The paver surface should be clean and free from oil, dirt, dust and any loose material. This ensures a uniform result and allows the sealer to better penetrate the surface.
• The pavers should be free of any visible efflorescence.
• If pavers have been sealed before, make sure to reseal with compatible product.
• Surface must be dry (48 hours without precipitation) and warm to the touch (morning).
• Joint sand must also be dry.
• Make sure lawn sprinklers are shut off.
• Best air temperature is between 50 degrees to 80 degrees with no rain forecasted for the next 24 hours.
• It is best to apply product under constant weather conditions and use the same application method from start to finish.
• The paver joints should be completely filled with dry correctly-graded joint sand. The top level should not exceed the bottom of the chamfer or 1/8” below the surface on the non-beveled or tumbled paver surface.
• Always test the product on a small hidden area to ensure the results will meet your expectations.
• Always show homeowners samples to ensure expectations.

At this point read all sealer instructions and determine the best sealer for your desired goal. Do you want to retain the original look, enhance the color, or stabilize the sand joint?

• Read application information as each sealer can be applied differently.
• Make sure you have the correct equipment based on type of sealer. Solvent based sealers need solvent resistant sprayers, watering cans or paint trays. Water base sealers can be generally applied using plastic equipment. Example: solvent based sealers come in metal containers and water based sealers come in plastic containers.
• Care should be taken that no excess sealer material is pooled on the surface during application always back roll. When using solvent based sealers make sure roller is solvent resistant or for all paints. Foam rollers work best and are less likely to pull sand from the joints.
• Stabilizing sealers are generally sprayed or flood coated with a watering can, then back rolled.
• Acrylic non-stabilizing sealers can be sprayed, then back rolled or rolled on using a metal paint tray.
• Send your most experienced worker to do sealing projects.
TERMS AND CONDITIONS OF SALE

1. All orders are accepted subject to prevailing state or other taxes, and subject to the cost of freight applying at the time of shipment.

2. The acceptance by the seller of an order shall constitute a binding contract of purchase and sale, in accordance with the terms set out in this agreement.

3. These terms and conditions together with the purchase order form the complete contract, and there are no representations, warranties, or conditions expressed or implied affecting this contract, other than as contained herein.

4. All sales are made in accordance with the seller’s samples, which the purchaser has seen and approved. No guarantee of exact color shades is made.

5. Delays incurred on delivery in excess of one hour will be billed to the purchaser at $80 per hour or fraction thereof. Similarly, delays incurred on partial delivery (1-7 bundles) in excess of one half hour, will be billed to the purchaser at the same rate.

6. Use of any delivered materials by or on behalf of the purchaser shall be deemed to constitute acceptance of the materials by the purchaser.

7. Excessive defective material picked up or delivered to the purchaser will be replaced free of charge if a claim is made within five days. Free replacement will be the extent of the seller’s warranty. Any such claim will not constitute a reason for delaying payment. All other claims must be submitted within 30 days of purchase.

8. Unsuitable or unsatisfactory materials must be available for inspection by the seller, to entitle the purchaser to any adjustment or credit.

9. No materials may be returned for credit except with the written consent of the seller, whether such materials were ordered in excess of the purchaser’s requirement, by mistake, or otherwise. ACCESSORIES, SECTIONS AND OPENED MATERIAL ARE NON-RETURNABLE FOR ANY REASON.

10. Where the seller agrees to accept the return of goods, these goods are subject to freight charges and a restocking charge of 20% of their value plus delivery.

11. All custom produced product must be shipped within 30 days of the receipt of the order. After 30 days, all custom produced material will be subject to a storage fee of $5.00 per pallet per month. Please contact your Territory Manager for more information.

12. Seller does not accept responsibility for delays in deliveries due to fire, flood, strikes, or any other condition or contingencies beyond its control.

13. The purchaser is responsible for installation of the materials on the job site, and the seller has no responsibilities in this regard.

14. All C.O.D. orders must be paid by certified check, cash, or prior approved check.

15. All approved credit accounts are payable within thirty days from the date of invoice. After 30 days, interest will be charged at 1.5% per month (A.P.R. 19.65%), calculated monthly on the balance owing at the beginning of the period. If purchaser defaults in the payment of any portion of amounts due on this account, the entire remaining unpaid balance shall, at the option of the seller, immediately become due and payable with collection costs incurred.

16. Skid deposits are non-refundable with 2 or more broken top boards or one main stringer board. If you should have skids loaded onto your vehicle or receive a delivery with skids in this condition, you must have the Unilock representative (loader or truck driver) note the quantity on the shipping document paperwork.

17. Title and ownership of the goods shall not pass to the purchaser until the entire amount owing; including interest is paid in full.

ADDITIONAL INFORMATION

1. All prices are F.O.B. Aurora, IL, Marengo, IL & Elkhorn, WI (see Freight rates below) - Contact Unilock for Kansas rates

2. Phone shipping desk for schedules, rates, and conditions.

3. Configurations may vary from time to time due to mold design changes.

4. All sales are made in accordance with the seller's samples, which the purchaser has seen and approved. No guarantee of exact color shades is made.

5. Delays incurred on delivery in excess of one hour will be billed to the purchaser at $80 per hour or fraction thereof. Similarly, delays incurred on partial delivery (1-7 bundles) in excess of one half hour, will be billed to the purchaser at the same rate.

6. Use of any delivered materials by or on behalf of the purchaser shall be deemed to constitute acceptance of the materials by the purchaser.

7. Excessive defective material picked up or delivered to the purchaser will be replaced free of charge if a claim is made within five days. Free replacement will be the extent of the seller’s warranty. Any such claim will not constitute a reason for delaying payment. All other claims must be submitted within 30 days of purchase.

8. Unsuitable or unsatisfactory materials must be available for inspection by the seller, to entitle the purchaser to any adjustment or credit.

9. No materials may be returned for credit except with the written consent of the seller, whether such materials were ordered in excess of the purchaser’s requirement, by mistake, or otherwise. ACCESSORIES, SECTIONS AND OPENED MATERIAL ARE NON-RETURNABLE FOR ANY REASON.

10. Where the seller agrees to accept the return of goods, these goods are subject to freight charges and a restocking charge of 20% of their value plus delivery.

11. All custom produced product must be shipped within 30 days of the receipt of the order. After 30 days, all custom produced material will be subject to a storage fee of $5.00 per pallet per month. Please contact your Territory Manager for more information.

12. Seller does not accept responsibility for delays in deliveries due to fire, flood, strikes, or any other condition or contingencies beyond its control.

13. The purchaser is responsible for installation of the materials on the job site, and the seller has no responsibilities in this regard.

14. All C.O.D. orders must be paid by certified check, cash, or prior approved check.

15. All approved credit accounts are payable within thirty days from the date of invoice. After 30 days, interest will be charged at 1.5% per month (A.P.R. 19.65%), calculated monthly on the balance owing at the beginning of the period. If purchaser defaults in the payment of any portion of amounts due on this account, the entire remaining unpaid balance shall, at the option of the seller, immediately become due and payable with collection costs incurred.

NOTE: Rates are based on current economic conditions and are subject to fuel surcharges, which will be based on the U.S. National Average Midwest rate of diesel fuel, calculated weekly. When the average price of fuel rises (or drops), the surcharge will take effect the following Monday. These rates can be located at www.eia.gov/petroleum/gasdiesel/.
SPECIAL ORDER PRODUCTS

Products listed as “Special Order” are not currently inventoried and may require additional lead times for manufacturing (or transfer from other Unilock locations). Prior to bidding or quoting projects, confirm Special Order unit pricing and minimum quantity requirements. A signed “Special Order Release Form” must be submitted prior to manufacturing and all material must begin shipping within 30 days of manufacturing date. Any Special Order products remaining at Unilock after 30 days will be subjected to a storage fee of $5.00 per pallet per month. (Maximum storage is 3 months) All quantities listed on the Special Order Release Form must ship and be paid in full. Please contact your Territory Manager for more information.

UNILOCK PAVER PATTERNS

This Product Data Guide contains an extensive reference to patterns and designs. The purpose of these pattern swatches is to help the designer plan unique and exceptional designs. The percentages of products shown are based on the pattern and not on bundle configurations. In fact, there may be situations in which a pattern has been created with one particular size of stone, but that stone only comes packaged with two other sizes. This means that the designer will have to plan how the other components are used in the overall plan. This is usually accomplished by adding a border or an accent. As a result, overages or shortages may occur in certain patterns. The designer and/or installer of Unilock products accepts all responsibility for design and all associated costs incurred as a result of applying any of Unilock’s suggested design patterns in a project. Please plan your project and review your order carefully prior to ordering.

TRANSFERABLE LIFETIME GUARANTEE

Unilock provides a Transferable Lifetime Guarantee* on the structural integrity of our paving stones, slabs and retaining wall units to the original purchaser of the product for residential use. Any materials installed and maintained to our guidelines, and subject to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Proof of purchase is required.

Excessive defective material (over the industry accepted normal of 2% for non-tumbled unit pavers) delivered to the purchaser will be replaced free of charge if a written claim is made within 5 days of delivery from the manufacturer. Such claims will not constitute reason for delaying payment. All goods shall be deemed accepted if completely installed. Inspect concrete products prior to opening bundle packaging to ensure that shape and color are as ordered. Unsatisfactory material must be available for inspection by Unilock to entitle the purchaser to any adjustment or credit. Inspect all concrete units during installation and set aside any which are chipped or cracked to use for any cut pieces required. The color of concrete products may vary significantly between production lots. Always install concrete units from several bundles simultaneously to ensure proper distribution of color. Prior to final compaction, inspect installed pavers for good color distribution. Relocate certain pavers, if necessary, to achieve desired color blend.

*Transferable Lifetime Guarantee: Register your project within 60 days of your dated proof of purchase to ensure your Unilock Guarantee is fully transferable! Simply go online at unilock.com and follow instructions. Once processed, you will receive an original Transferable Warranty Certificate for your records.

PRODUCT HANDLING WARNING

Bundle Straps Under Tension - Use extreme caution when removing or handling straps. Always wear gloves, goggles, safety footwear, and protective clothing when removing or handling straps. Failure to do so may result in serious bodily injury or loss of sight.

Cut all concrete products only in well ventilated areas. Inhalation of dust is a serious health risk. A “NIOSH” (US) or a “CSA” (CDN) approved respirator, safety goggles, hearing protectors, and gloves must be worn at all times. Always “wet-cut” or “wet grind” concrete products to minimize dust.

Do not stack bundled concrete products higher than 2 bundles high. Contents of the bundle may be unstable and subject to topple when stacked. Always use extreme caution and appropriate equipment when transporting or storing bundled concrete products. Failure to do so may result in serious bodily injury or death. Always obey gross vehicle weight (GVW) loading limitations and regulations.

Hazard Rating: Fire 0, Health 1, Reactivity 0. See SDS Concrete Masonry (Pavers). Contact Unilock for complete sheet or view safety information at www.unilock.com

Unilock assumes no liability or responsibility for loss or damage, resulting from the improper use or handling of our products, or from failure to follow instructions, warnings, and/or advisories on the product label, and on the SDS sheet.

IMPORTANT NOTICE

1. **DO NOT USE** Polymeric Jointing Sand on the following products:

   Series™     Il Campo®

   If joint stabilization is required, use ordinary jointing sand and apply a stabilizing sealer. **Contact your local Unilock office for recommended sealants and application specifics.**

2. **EXTRA CARE** must be exercised when using Polymeric Sand on the following products:

   Arcana       Courtstone®    Copthorne®   Richcliff®    Senzo™       Town Hall®   Tribeca Cobble   Umbriano®

   Unilock’s Polymeric Jointing Sand can be used on these products but the fine polymers and binders in Unilock Polymeric Jointing Sand have a natural tendency to adhere to the surface and therefore extra diligence must be taken to pre-clean the surface prior to “wetting the sand in” and squeegee off the surface post application. Failure to do so will result in a “whitish haze” on the surface that is difficult to remove.

3. **IMPORTANT COMPACTION NOTICE:** Always pre-compact the pavers WITHOUT SAND IN THE JOINTS. This will facilitate proper leveling. Polymeric sand can then be swept into the joints. **Always use a compactor with a protective membrane attached to the bottom of the plate.**

   Unilock Polymeric Jointing Sand, cleaners and sealers, must always be applied by a trained and experienced professional. **Contact your local Unilock office for training and the most up-to-date best practices.**

   **NOTICE:** Unilock does not accept any responsibility for damage to the surface caused by the improper application and use of Unilock polymeric sand, sealers or cleaners.
