PAREXUSA

Revision Date: 08/07/15

1 Identification of the substance/preparation and of the company/undertaking

Product details Product category: Trade name: Application/preparation of the substance: Manufacturer/Supplier:

FLOORING Elite Fire Rock Adhesive Mortar Adhesives PAREXUSA, Inc. 4125 E. LA PALMA AVE SUITE 250 ANAHEIM, CA 92807 david.reyes@parexusa.com 800-226-2424 800-424-9300

Further information obtainable from: Contact phone number: In case of emergency, contact CHEMTREC:

2 Hazards identification

Hazard pictograms (GHS-US):	Irritant	
Hazard pictograms (GHS-US):	Health Hazards	
Signal word (GHS-US):	Warning	
Hazard statement (GHS-US):	H303	Can be harmful if swallowed
	H320	Causes eye irritation
	H335	May cause respiratory irritation
	H313	May be harmful in contact with skin
Precautionary statements (GHS-US):	P402	Store in a dry place.
	P280	Wear protective gloves/protective clothing/eye protection/face protection.
	P302+P352	IF ON SKIN: Wash with plenty of soap and water
	P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	P304+P341	IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing
	P301+P310	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
HMIS codes:		
Health	1*	
Flammability	0	

0

Е

Reactivity Protective equipment

Information concerning particular hazards for human and environment:

May be harmful if ingested.

Dust may be irritating to eyes, respiratory system, and skin.

Not known to cause reproductive harm or birth defects.

Keep out of reach of children.

*Chronic Hazard

3

Composition/information on ingredients

Chemical characterization

Crystalline silica	OSHA PEL (Respirable quartz)	10 mg/m3 / (% silica + 2)
Crystalline silica		0/ 1/(11/1
Crystanne sinca	ACGIH TLV	0.025 mg/m ³ (respirable)
Portland cement	OSHA PEL (Respirable)	5 mg/m ³
	OSHA PEL (total)	15 mg/m ³
	ACGIH TLV (Respirable)	10mg/m ³ (Less 1% Quartz)
	Portland cement	OSHA PEL (Respirable) Portland cement OSHA PEL (total)

4 First aid measures	
General information:	n/a
After inhalation:	Remove to fresh air. If not breathing, give artificial respiration. If having difficulty breathing, give oxygen. Get immediate medical attention.
After skin contact:	Wash affected area thoroughly with soap and water. Remove contaminated clothes and launder before re-use.
After eye contact:	Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.
After swallowing:	Do not induce vomiting. Get medical attention immediately.

5	Fire-fighting measures	
	General information:	This product does not support combustion and is non-flammable.
Flash point: n/a		n/a
	Suitable extinguishing agents: For the dried product, use carbon dioxide, dry chemical, or alcohol foam.	
	Hazardous combustion products:	n/a
	Protective equipment:	n/a
	Firefighting instructions:	n/a

6	Accidental release measures	
	Measures for environmental protection:	Keep spilled products out of sewers, streams, and water systems.
	Measures for cleaning/collecting:	For dry material, collect by sweeping and scooping. Transfer collected material to a container, being careful to minimize creation of dust. For wet material, scoop material up and transfer to an open container. Allow material to dry before disposal.
	Additional information:	See section 13 and section 15 for specific regulatory information concerning this product.

7 Handling and storage

Handling:

Wear appropriate protective equipment when working with this product. Promptly remove dusty clothing, or clothing wet with product mix, and launder before re-using. Wash thoroughly after exposure to product dust, or wet product mixtures. Keep out of reach of children.

Storage:

Store in a dry location. Atmospheric temperatures and pressures do not affect the shelf life of this product. However, moisture contamination will render the product useless. Keep product concentrate dry until use.

8	Exposure controls/personal protection	
	Additional information about design of technical facilities: n/a	
	Additional information:	The lists valid during the making were used as a basis.
	Personal protective equipment:	
	ventilation	Use local exhaust. General exhaust acceptable if the exposure to materials above is maintained below

Elite Fire Rock Adhesive Mortar

respiratory protectionIf personal exposure cannot or may not be controlled below applicable limits by ventilation, wear
properly fitted respirator approved by NIOSH/MSHA for protection against materials described above.eye protectionWear safety glasses to reduce the potential for eye contact.
Prevent prolonged or repeated contact by using rubber gloves and appropriate protective clothing.

applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, and 1910.108.

9 Physical and chemical properties

General information:		
form	Powdered Solid.	
color	white and/or gray	
odor	No distinct odor.	
рН	12	
Change in condition:		
melting point/melting point range	n/a	
boiling point/boiling point range	n/a	
evaporation rate:	n/a	
vapor density:	n/a	
Specific gravity:	2.8	
Solubility in/Miscibility with water:	negligible	
Density at 20°C:	21.96 lb/gl	
VOC:	0 g/l(0.0lb/gl)	

10 Stability and reactivity

Conditions to be avoided:None KnownChemical stability:StableMaterials to be avoided:Avoid any acidic substance pH below 7Hazardous polymerization:Will not occurDangerous decomposition products:

Will not spontaneously occur. Addition of water will produce caustic calcium hydroxide, which can cause chemical burns.

11 Toxicological information	
Acute toxicity:	
crystalline silica (quartz, cristobalite)	Considered a known human carcinogen by Federal (OSHA) and advising health agencies (IARC, NIOSH, and NTP). Additionally, crystalline silica can cause a lung condition known as silicosis after long term exposure to dusts containing crystalline silica. Exposure of workers to crystalline silica containing dusts is specifically regulated by OSHA. The use of a correctly fitted, NIOSH approved respirator suitable for use against crystalline silica inhalation is essential for minimizing exposure to this danger.
mineral dusts	Some items mentioned in Section 8 are considered mineral dusts by OSHA and a correctly fitted, NIOSH approved respirator is required when working with this product.
Portland cement and calcium hydroxide	A single, short term exposure to the dry form of these two items, which are present in this cement concentrate mix, are not likely to cause serious harm. However, exposure of sufficient duration to wet cement can cause serious, potentially irreversible tissue destruction of the skin or eye from caustic chemical burns, including third degree burns. The same type of tissue destruction can occur if wet or moist areas of the body are exposed for sufficient duration to dry cement concentrate. Wet cement is caustic and personal protective equipment, and proper work hygiene, must be employed for protection against personal injury.
Primary irritant effect:	
on the skin	Exposure of skin to wet product mix may cause chemical burns. Symptoms of exposure may take several hours to manifest.
on the eye	Exposure of eyes to wet product mix may cause chemical burns and blindness. Exposure to airborne dust can cause immediate or delayed irritation or inflammation.
